SUMMARY

Product marketing and go-to-market lead with 3 years in B2B commerce and restaurant technology, selling to kirana shopkeepers, FMCG distributors and restaurant chains. Wrote the templates that launched a new business in 2 cities, built a WhatsApp channel that reached 29,172 shopkeepers in a month, and designed a 12-message order journey in Hindi.

EXPERIENCE

Product Manager – Growth & Go-to-Market

Oct 2025 – Sep 2026

Badho Technologies (B2B marketplace for kirana retail)

Gurugram, India

- Launched **Badho Wholesale in Delhi and Gurugram**: wrote the WhatsApp launch templates, ran 20,000-recipient geography batches (20,116 sent, 16,951 delivered, 8,418 read); charter to first delivery in 11 days.
- Built the WhatsApp channel from zero: segmented **1.17M buyers into 7 mutually exclusive cohorts**, ran campaigns at 25k–62k audiences (read 46–70%, click 3–13%); reached **29,172 shopkeepers in June at INR 6.43 each**.
- Designed the **12-message post-order WhatsApp journey in Hindi** (one action per message, prepaid reassurance, unboxing ask); specified the out-for-delivery reminder call: 1,911 orders, 74% answered, returns 17% vs 21%.
- Owned the discount design behind the “sabse sasta” claim: wrote the item-level slab logic shown as margin earned; **AOV INR 806 → 892 (+10.7%)** on flat daily actives; re-tuned the tiers to cut coupon spend 45.7%.
- Built 2 Shopify storefronts myself to test cold Meta traffic outside the app, selling on a **buy / sell / margin table** (“you earn”, not “you save”); live with ads in 11 days, shut when carts did not become orders.
- Co-owned go-to-market for a delivery service sold to FMCG distributors by the truck-day, pitched on their idle-truck cost: **137 → 634 truck-days a month**, 53 paying distributors; designed and ran the WhatsApp supply campaigns (500 driver leads, **32% replied**; 2,688 distributors surveyed).
- Took a partner brand’s direct-to-retailer channel from idea to first delivery in 17 days: factory rate plus INR 95 a bag, a half-tonne floor, a call-to-order campaign, then the flow inside the buyer app.
- Defined the contribution-margin model the business ran on and drove it from **–77% to +10.6%** of order value (Feb → Aug 2026); wrote the Hinglish copy rules and send cap for the push rebuild.

Product Manager, Strategy & Growth

Jul 2024 – Oct 2025

ONO Suite (self-ordering kiosks and apps for restaurant chains; intern Jan – Jun 2024)

Gurugram, India

- Ran go-to-market: a **118-account prospect funnel across 12 Indian cities and Riyadh** reviewed weekly, **34 prospects booked for intro calls with the founder**, 26 POS and hardware partner conversations, 8 sales channels tested.
- Authored the **pricing and packaging**: subscription vs ownership buyout, priced per kiosk and per store, and the commercials for 7 brands including Herfy, Mad Over Donuts and SVS Foods.
- Ran client reporting and kiosk campaigns for Taco Bell India’s franchisee on a **19-store, 34-kiosk estate (INR 4.19 Cr gross kiosk orders, 2024)**: 16 weekly reports; INR 1 Wednesdays, 32 items repriced for National Taco Day.
- Pitched DOKA (Riyadh, 9 branches) with a clickable prototype after a competitive teardown, signed at ~\$7,000; product-managed the app to **App Store approval**.
- Handled the Herfy account (Saudi Arabia): **79 live kiosks, 3 consecutive renewals**, a tax shortfall recovered.

Earlier Experience

Oct 2021 – Jun 2024

- Founding Software Engineer, Taxian** (Oct 2023 – Jun 2024): Play Store app, 500+ users; led 5. **Software Developer** (Oct 2021 – Aug 2023): goblaq (US), Quonectic (Canada), OneAll Digital.
