SUMMARY

Growth and strategy product manager with 3 years in B2B marketplaces, logistics and retail technology. Finds the arithmetic under a stalled metric and changes the model: took a marketplace from losing money on every order to positive contribution margin in 6 months, tripled signup completion, built a WhatsApp channel to 29,172 shopkeepers a month, and measured every retention scheme.

EXPERIENCE

Product Manager – Growth, Strategy & Go-to-Market

Oct 2025 – Sep 2026

Badho Technologies

Gurugram, India

- Defined the contribution-margin model the business ran on and drove it from **–77% to +10.6%** of order value (Feb → Aug 2026): forward shipping cost carried 46% → under 1%, discounts 15.1% → 9.6%, commission 12.7% → 19.4%.
- Led the buyer-app growth roadmap: **registration completion 30% → 94%** by removing the post-OTP screens in 2 steps; moved the whole order flow onto **1 multi-seller cart the day it shipped**, orders per active buyer-day +38%.
- Built the WhatsApp channel from zero on a 7-cohort audience model over 1.17M buyers: **29,172 shopkeepers brought into the app in June at INR 6.43 each**; fixed the attribution error hiding ~63% of its buyers; set its breakeven rule.
- Launched 4 pricing experiments: item-level quantity coupons lifted **AOV INR 806 → 892 (+10.7%) on flat daily actives**; re-tuning the discount tiers then cut coupon spend 45.7% with no drop in orders.
- Measured every retention scheme against repeat orders: gift-ladder qualifiers re-ordered next month at **41% vs 14%**; a INR 4.6 Cr face-value credit run measured (under INR 28k spent); referred sign-ups ordered at 1 in 4 vs under 1 in 100.
- Drove the fulfillment program: **return-to-origin 42.5% → 21.4%**, orders delivered **22% → 64%** on 4× volume; specified 34 of its 42 features; program-managed the courier weight-claim agent (378 claims in a day).
- Owned the operating model and launch for the pivot to own-warehouse distribution: **written plan to first delivery in 11 days**; average order in Delhi–Gurugram INR 860 → 1,201.
- Co-owned a delivery-as-a-service business priced by the truck-day: **137 → 634 truck-days a month**, 53 paying distributors; merged all 202 production releases of 3 apps, wrote 489 tickets.
